Important Questions	Answers	Why This Matters:
What is the overall deductible ?	\$1,400 you only/ \$2,800 family. Network and non-network combined. Does not apply to preventive care or preventive prescription drugs.	If you have other family members on the plan, the overall family deductible must be met before the plan begins to pay. Note: If you have a Health Savings Account (HSA), you may have money in your account to utilize for this purpose.
Are there services covered before you meet your deductible ?	Yes. Preventive Care.	This plan covers some items and services even if you haven't met the deductible amount. For example, this plan covers certain preventive services without cost-sharing and before you meet your deductible . See a list of covered preventive services at https://www.healthcare.gov/coverage/preventive-care-benefits/ .
Are there other deductibles for specific services?	No.	You don't have to meet deductibles for specific services.
What is the out-of-pocket limit for this plan ?	Network: \$4,500 individual/ \$9,000 family. Non-network: \$13,500 individual/ \$27,000 family.	The out-of-pocket limit is the most you can pay in a year for covered services. Once an individual out-of-pocket limit has been met, covered services for that individual are paid at 100%. If you have other family members in this plan , they have to meet their own out-of-pocket limits until the overall family out-of-pocket limit has been met.
What is not included in the out-of-pocket limit ?	Expenses not covered by the plan, such as expenses in excess of non-network reimbursement rate limits (typically referred to as usual customary and reasonable), precertification penalties, premiums, balance billed charges, prescription drug retail refill allowance, quantity level limitations, brand/ generic difference.	Even though you pay these expenses, they don't count toward the out-of-pocket limit .
Will you pay less if you use a network provider ?	Yes. See www.bcbstx.com or call 1-855-594-4233 for a list of medical and behavioral health network providers. See www.caremark.com or call 1-888-208-9634 for a list of prescription drug network	This plan uses a provider network. You will generally pay less if you use a provider in the plan's network . You will generally pay the most if you use an out-of-network provider , and you might receive a bill from a provider for the difference between the provider's

	providers.	charge and what your plan pays (balance billing). Be aware your network provider might use an out-of-network provider for some services (such as lab work). Check with your provider before you get services.
Do you need a referral to see a specialist ?	No. You don't need a referral to see a specialist .	You can see the specialist you choose without a referral.

 All [copayment](#) and [coinsurance](#) costs shown in this chart are after your [deductible](#) has been met, if a [deductible](#) applies.
